

Legal Advisory Memo

Standard-template review for low-risk vendor renewals

INTERNAL - ADVISORY

Memo ID	APX-LEGAL-MEM-027
Issued	2026-08-20
Status	Active advisory
Owner	Legal Operations
Applies to	Low-risk renewals below USD 100,000
Related policy	APX-PROC-POL-014 version 3.0

Question presented

Does APX-PROC-POL-014 require a separate lawyer signature for every low-risk renewal below USD 100,000?

Advisory interpretation

The policy requires a Legal review stage, but the form of that review depends on risk. For a low-risk renewal using the approved standard agreement with no changes to data use, liability, term, governing law, or security obligations, completion of the current Legal template checklist satisfies the Legal review stage. A separate lawyer signature is not required in that narrow case.

Any non-standard clause, new data access, regulated activity, unresolved dispute, material scope change, or supplier-requested amendment must be referred to Legal counsel.

Authority and limits

This memo is an advisory interpretation. It does not supersede APX-PROC-POL-014, the Procurement Approval Matrix, or any mandatory Information Security review. If the policy and this memo appear to conflict, the policy controls and Legal Operations should be consulted.

Do not interpret this memo as removing the Legal stage from the vendor process. It only defines an approved path for satisfying that stage in a limited renewal scenario.
